

SCIENCEPOWER™ 10

Table of Contents

To the Teacher

A Tour of Your Textbook

Safety in Your Science Classroom

Introducing *SCIENCEPOWER™ 10* Program

Science and Science Inquiry

Technology and Technological Problem Solving

Societal Decision Making

Unit 1 Sustainability of Ecosystems

Chapter 1: Connecting Links

Opening Ideas

1.1 Capturing Energy from the Sun

1.2 Feeding Levels

Conduct an Investigation 1-A: Seeing Patterns in Nature

1.3 Populations

Conduct an Investigation 1-B: Regulating Population Size

1.4 Feeding People

Think & Link Investigation 1-C: DDT in a Food Chain

Chapter at a Glance

Chapter 1 Review

Chapter 2: Cycles of Life

Opening Ideas

2.1 A Matter of Life and Death

2.2 The Carbon Cycle

Conduct an Investigation 2-A: The Chemistry of Photosynthesis

Think & Link Investigation 2-B: The Carbon Cycle and Climate

2.3 The Nitrogen Cycle

Conduct an Investigation 2-C: Fertilizers and Plant Growth

Conduct an Investigation 2-D: An Acid Test

2.4 Closing the Loop

Design & Do Investigation 2-E: What Is Sustainability?

Chapter at a Glance

Chapter 2 Review

Chapter 3: Change and Sustainability

Opening Ideas

3.1 The Importance of Soil

Conduct an Investigation 3-A: Investigating Soil

3.2 Change and Succession

Conduct an Investigation 3-B: The Impact of Change

3.3 Understanding Land Use

Think & Link Investigation 3-C: Modelling an Environmental Impact Assessment (EIA)

Chapter at a Glance

Chapter 3 Review

Chapter 4: Planet Home

Opening Ideas

4.1 Managing Resources

Conduct an Investigation 4-A: Balancing Populations and the Environment

4.2 Ecological Footprints

Think & Link Investigation 4-B: Alternatives to Growth

4.3 Sustainable Future

Design & Do Investigation 4-C: Using Biotechnology to Produce Food

Chapter at a Glance

Chapter 4 Review

Unit 1 Ask an Expert: Bernadette Tenning

Unit 1 Issue Analysis: Clearcutting Versus Selective Cutting of Forests

Unit 1 Project: Lights, Camera, Action!

Unit 1 Review

Unit 2 Chemistry in Action

Chapter 5: Patterns and Compounds

Opening Ideas

5.1 Looking for Patterns on Chemical Reactivity

5.2 Forming Compounds

Think & Link Investigation 5-A: Ionic or Covalent: Track Those Electrons

Conduct an Investigation 5-B: Molecules or Ions

5.3 Chemical Names and Formulas

Think & Link Investigation 5-C: Writing Names and Formulas of Binary Ionic Compounds

Conduct an Investigation 5-D: Discovering Insoluble Ionic Compounds

5.4 Chemical Equations and Chemical Reactions

Conduct an Investigation 5-E: Comparing the Masses of Reactants and Products

Chapter at a Glance

Chapter 5 Review

Chapter 6: Investigating Chemical Reactions

Opening Ideas

- 6.1 Energy Changes and Chemical Reactions
 - Conduct an Investigation 6-A: Modelling Chemical Reactions*
- 6.2 Synthesis and Decomposition Reactions
- 6.3 Single Displacement and Double Displacement Reactions
 - Conduct an Investigation 6-B: Develop Your Own Activity Series*
 - Conduct an Investigation 6-C: Putting It Together: Classifying Chemical Reactions*
 - Think & Link Investigation 6-D: Analyzing an Industrial Process*
- 6.4 Reactions Involving Carbon Compounds 0

Chapter at a Glance

Chapter 6 Review

Chapter 7: Acids and Bases

Opening Ideas

- 7.1 Common Acids and Bases
 - Conduct an Investigation 7-A: Acid or Base?*
 - Conduct an Investigation 7-B: The Oxides of Metals and Non-Metals*
- 7.2 pH: A Powerful Scale
 - Conduct an Investigation 7-C: The pH of Common Acids and Bases*
- 7.3 The Properties of Acids and Bases
 - Conduct an Investigation 7-D: Chemical Properties of Acids and Bases*
- 7.4 Neutralization Reactions
 - Conduct an Investigation 7-E: Drop-by-Drop Neutralization*

Chapter at a Glance

Chapter 7 Review

Chapter 8: Chemical Reactions and the Environment

Opening Ideas

- 8.1 Factors That Affect Chemical Reactions
 - Conduct an Investigation 8-A: Factors Affecting Chemical Reaction Rate*
 - Design & Do Investigation 8-B: Control a Chemical Reaction*
- 8.2 Chemicals for Consumers
 - Conduct an Investigation 8-C: Testing the Effectiveness of Antacids*
- 8.3 Chemicals and Our Environment

Chapter at a Glance

Chapter 8 Review

Unit 2 Ask an Expert: Selma Guigard

Unit 2 Issue Analysis: Not in My Backyard

Unit 2 Project: Acid Precipitation Resource

Unit 2 Review

Unit 3 The Physics of Motion

Chapter 9: What Is Motion?

Opening Ideas

9.1 Getting into Motion

Conduct an Investigation 9-A: Be Specific

Design & Do Investigation 9-B: Air Power

9.2 The Language of Motion

Think & Link Investigation 9-C: Heading for Home

9.3 Measuring Motion

Conduct an Investigation 9-D: Slow but Sure

Chapter at a Glance

Chapter 9 Review

Chapter 10: Uniform Motion

Opening Ideas

10.1 Position, Time, and Velocity

Think & Link Investigation 10-A: What's in a Slope?

10.2 Getting Around

Think & Link Investigation 10-B: The Better Bicycle

10.3 Velocity-Time Graphs

Conduct an Investigation 10-C: Pick Up the Pace

Conduct an Investigation 10-D: The Pendulum's Path

Chapter at a Glance

Chapter 10 Review

Chapter 11: Accelerated Motion

Opening Ideas

11.1 Describing and Measuring Acceleration

11.2 Using and Picturing Acceleration

Conduct an Investigation 11-A: The Definite Difference

Think & Link Investigation 11-B: Brush Up Your Graphing Skills

11.3 Inferring Acceleration

Link Investigation 11-C: Free Fall

Design & Do Investigation 11-D: Hit the Brakes!

Chapter at a Glance

Chapter 11 Review

Chapter 12: Life in Motion

Opening Ideas

12.1 The Drop Zone

Conduct an Investigation 12-A: Measuring the Acceleration Due to Gravity

Conduct an Investigation 12-B: Terminal Velocity

12.2 The Mathematics of Acceleration

12.3 Tracking Technologies

Think & Link Investigation 12-C: Speeding, Safety, and Modern Life

Chapter at a Glance

Chapter 12 Review

Unit 3 Ask an Expert: Brad Hedderson

Unit 3 Project: High-Tech Highway

Unit 3 Issue Analysis: Who's in the Driving Seat?

Unit 3 Review

Unit 4 Weather Dynamics

Chapter 13: Solar Energy and Weather

Opening Ideas

13.1 Earth's Energy Budget

13.2 Energy and Water

13.3 Interactions of Solar Energy with Land and Air

Conduct an Investigation 13-A: Comparing the Properties of Soil and Water

Conduct an Investigation 13-B: Blowing in the Wind

Think & Link Investigation 13-C: Weather After Global Warming

Chapter at a Glance

Chapter 13 Review

Chapter 14: Air, Water, and Solar Energy

Opening Ideas

14.1 Solar Energy and a Spherical Earth

Conduct an Investigation 14-A: Hours of Daylight

14.2 Worldwide Wind Currents

Think & Link Investigation 14-B: Determining the Direction of Prevailing Winds

14.3 Rivers in the Sea

Conduct an Investigation 14-C: Moving Mountains of Water

14.4 Over Land and Sea

Chapter at a Glance

Chapter 14 Review

Chapter 15: Local Weather Systems

Opening Ideas

15.1 Rain or Shine?

15.2 Highs, Lows, and Fronts

15.3 Severe Weather

Chapter at a Glance

Chapter 15 Review

Chapter 16: Weather Data and Forecasting

Opening Ideas

16.1 Collecting Weather Data

Design & Do Activity 16-A: Build a Better Barometer

Conduct an Investigation 16-B: Measure the Wind

16.2 Weather Maps and Forecasting

Conduct an Investigation 16-C: Forecast the Weather

16.3 Past, Present, and Future

Think & Link Investigation 16-D: You are on the Team

Chapter at a Glance

Chapter 16 Review

Unit 4 Ask an Expert: Ted McIlldoon

Unit 4 Issue Analysis: Cooling the Driving Habit

Unit 4 Project: Preparing for a Really Rainy Day

Unit 4 Review

Appendix A Classifying Living Things

Appendix B Using Resources and the Internet Effectively

Appendix C Periodic Table of the Elements

Appendix D Properties of Common Substances

Appendix E Weather Map Symbols

Science Skills Guide

SkillPOWER 1 Using Graphic Organizers to Improve Your Learning

SkillPOWER 2 How to Use a Science Log

SkillPOWER 3 Note-Taking and Study Skills

SkillPOWER 4 Working in Groups

SkillPOWER 5 Units of Measurement and Scientific Notation

SkillPOWER 6 Using a Microscope

SkillPOWER 7 Estimating and Measuring

SkillPOWER 8 Organizing and Communicating Scientific Results

SkillPOWER 9 Using Models in Science

SkillPOWER 10 Safety Symbols

SkillPOWER 11 Scientific Drawing

SkillPOWER 12 Solving Numerical Problems (GRASP)
